

SMARTER THAN YOUR AVERAGE BOOM

More effective & cleaner for workers

Our unique booms don't just absorb hydrocarbon spills, they neutralise them permanently. Smart polymers inside the boom turn liquid spills into a non-leaching solid. This means that, unlike other absorbent booms, ours will not leak when saturated. They are better for the environment and cleaner for workers to handle.

- Stop spills dead in their tracks
- Turn liquid hydrocarbons into a less hazardous solid
- Water can be wrung out of wet booms reducing waste.
- Fully loaded booms create a solid barrier which prevents the spill spreading
- A range of booms for use on land or water

Common applications include:

- Around a hydrocarbon spill on the floor
- Around drains in high-risk areas
- Across waterways adjacent to construction sites
- Around pipes discharging into water bodies

Green Rhino Oil Retention Booms are effective with a range of hydrocarbons including petrol, diesel, motor oil and hydraulic fluids.

Booms can be deployed reactively or proactively. They may be used to absorb a small spill entirely or to contain a larger spill for clean up using products like **Green Rhino Oil Retention Pillows**.

Marine booms are generally thicker and include straps for tethering booms together.

Oil booms that use smart polymers can be used on flowing water because there are no liquid hydrocarbons inside the boom to be flushed out by the current. The smart polymers do not react with water in any way and are fully contained inside the boom.

For use on water

CODE	PRODUCT	SIZE	CAPACITY
GRR 02 82 01 BOOM	Marine Boom – 1m	100 x 7.75cm	Up to 3.2L oil
GRR 02 82 02 BOOM	Marine Boom – 2m	200 x 7.75cm	Up to 6.4L oil
GRR 02 82 03 BOOM	Marine Boom – 3m	300 x 7.75cm	Up to 9.6L oil
GRR 02 82 04 BOOM	Marine Boom – 4m	400 x 7.75cm	Up to 12.8L oil
GRR 02 82 05 BOOM	Marine Boom – 5m	500 x 7.75cm	Up to 16.0L oil
GRR 02 82 06 BOOM	Marine Boom – 6m	600 x 7.75cm	Up to 19.2L oil
GRR 02 82 07 BOOM	Marine Boom – 7m	700 x 7.75cm	Up to 22.4L oil
GRR 02 82 08 BOOM	Marine Boom – 8m	800 x 7.75cm	Up to 25.6L oil

For use on land

CODE	PRODUCT	SIZE	CAPACITY
GRR 02 80 01 BOOM	Quick Deployment Boom – 1m	100 x 4.5cm	Up to 1.6L oil
GRR 02 80 02 BOOM	Quick Deployment Boom – 2m	200 x 4.5cm	Up to 3.2L oil
GRR 02 80 03 BOOM	Quick Deployment Boom – 3m	300 x 4.5cm	Up to 4.8L oil
GRR 02 80 04 BOOM	Quick Deployment Boom – 4m	400 x 4.5cm	Up to 6.4L oil
GRR 02 80 05 BOOM	Quick Deployment Boom – 5m	500 x 4.5cm	Up to 8.0L oil
GRR 02 80 06 BOOM	Quick Deployment Boom – 6m	600 x 4.5cm	Up to 9.6L oil
GRR 02 80 07 BOOM	Quick Deployment Boom – 7m	700 x 4.5cm	Up to 11.2L oil
GRR 02 80 08 BOOM	Quick Deployment Boom – 8m	800 x 4.5cm	Up to 12.8L oil
GRR 02 80 12 BOOM	Quick Deployment Boom – 12m	1,200 x 4.5cm	Up to 19.2L oil
GRR 02 80 15 BOOM	Quick Deployment Boom – 15m	1,500 x 4.5cm	Up to 24.0L oil
GRR 02 80 30 BOOM	Quick Deployment Boom – 30m	3,000 x 4.5cm	Up to 48.0L oil
